ABOUT BOMBAY NATURAL HISTORY SOCIETY (BNHS):

Bombay Natural History Society (BNHS), a membership driven organisation, has been promoting the cause of nature since 1883. It is a designated Scientific and Industrial Research Organization (SIRO) of India. Conservation, based on scientific research, is the guiding principle of all activities undertaken at BNHS.

BNHS Mission: Conservation of nature, primarily biological diversity through action based on research, education and public awareness.

BNHS Vision: Premier independent scientific organisation with a broad-based constituency, excelling in the conservation of threatened species and habitats.

ABOUT CONSERVATION EDUCATION CENTRE (CEC), MUMBAI:

The Conservation Education Centre (CEC) of BNHS is located amidst lush green forest cover at Goregaon, nestled between the Dadasaheb Phalke Chitra Nagari (aka Film City) and Sanjay Gandhi National Park. In 1983, the Maharashtra Government, at the behest of the Government of India, offered the land in recognition of the Society's 100 years of service in nature conservation.

Since 1993, when the centre began its activities, it has worked towards creating awareness and concern about nature in students, educators, government employees, corporate bodies and general public. The diverse activities at CEC from walks to workshops to certificate courses draw thousands of visitors every year. The centre particularly strives to make conservation education accessible to the underprivileged students.
