**USING EBIRD MOBILE APP FOR INDIAN SKIMMER COUNT**

eBird mobile app is one of the easiest ways to upload your sightings. Here are a few video links that can guide you on how to use the App

[Installing and preparing eBird Mobile App](#)
[Submit your sightings through eBird Mobile](#)

Steps for submitting the count on the app

- **STEP 1:** Enter your counts to the [eBird mobile app](#) as a Checklist.
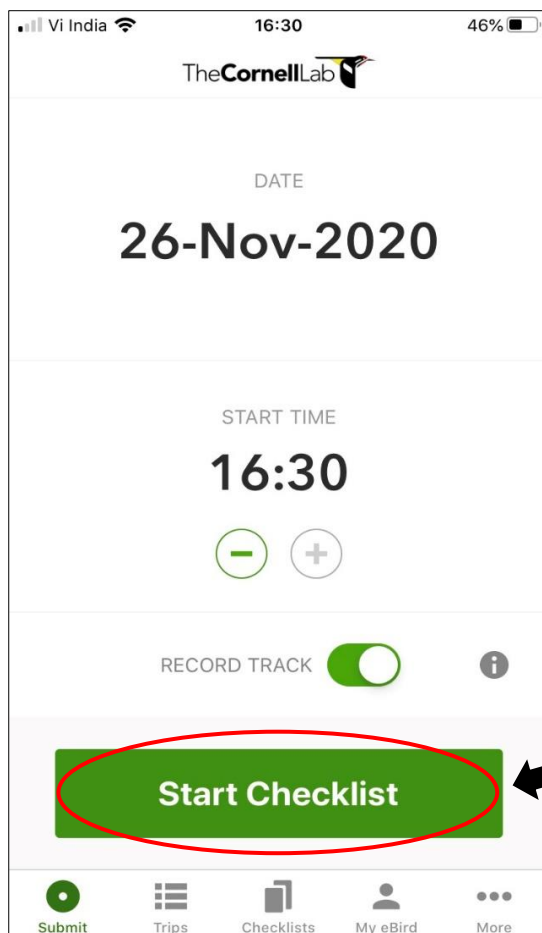

- **STEP 2:** Ensure that the location setting and GPS are turned on in your device so that the app can determine your GPS location.

- **STEP 3:** If you are counting only Skimmers or/and leaving out any species in the checklist including Pigeons, Crows, or Mynas, click on "**No**" for the option "Are you submitting a complete checklist of birds you were able to identify".

- **STEP 4:** If you are counting all species, click "**Yes**"

- **STEP 5:** Before submitting, click on the option "Observers" to increase the observer count to more than 1. An option called "Share checklist with" will show up.
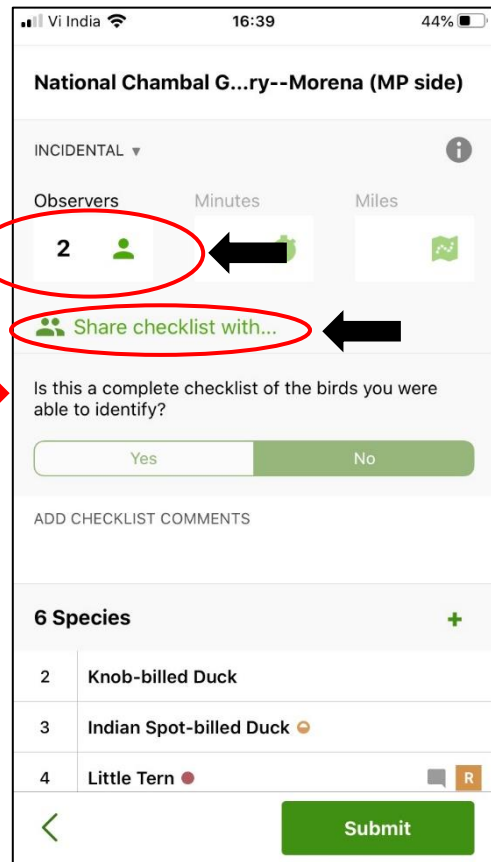

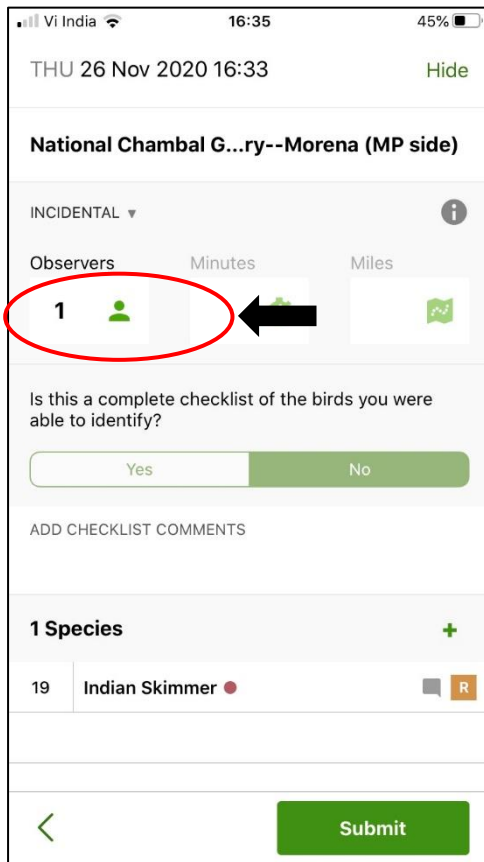

- **STEP 6:** Click on "Share checklist with", type in either "**Indian Skimmer**" or "skimmercount@bnhs.org", click the check box and then "**Done**", and then SUBMIT the checklist. This will share the checklist with the Indian Skimmer eBird group account.

- **STEP 7:** You can similarly share checklists with other participants using their eBird username or registered email ID's.
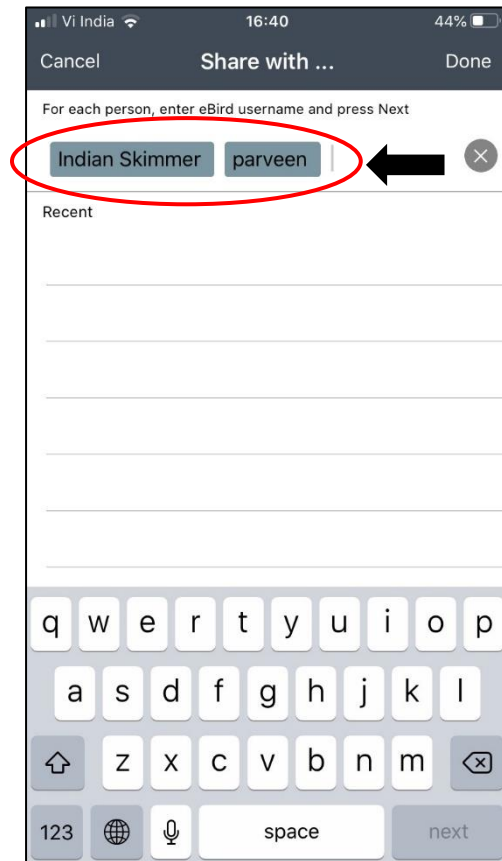

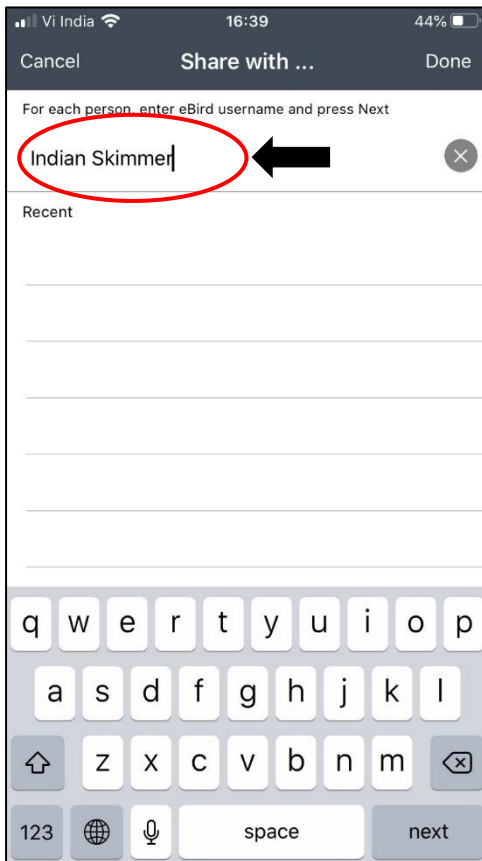

- **NOTE:** In case you do not have data, connection Click on **Close/Hide**. Your list will be saved in the '<u>Not-Submitted</u>' queue in the app under My Checklists. Whenever you have internet you can submit the list.
